# About us

## WE ARE EXPERIENCE IN STANDARD PROFESSIONAL SERVICES

Peer-to-peer transactions (also referred to as person-to-person transactions, P2P transactions, or P2P payments) are electronic money transfers made from one person to another through an intermediary, typically referred to as a P2P payment application. P2P payments can be sent and received via mobile device or any home computer with access to the Internet, offering a convenient alternative to traditional payment methods

Peer to Peer (P2P) MLM is donation based platform.

This will allow earning the money from the system. P2P MLM is extremely basic and a successful strategy in the MLM industry. It is an idea of giving money to the required person and gets the earnings. P2P MLM is given and gets earnings from each other.

# Our Vision

TRON P2P aims to extend our business to the entire crypto currency industry chain in the future and serve global users with technology innovations.

# What is TRON P2P

TRON's native token, TRX, is used for transactions and as a means of payment for using the platform's services. The platform also includes a decentralized exchange (DEX) and a peer-to-peer (P2P) platform for content distribution. TRON was founded by Justin Sun in 2017 and is based in Singapore. A peer is **someone at your own level**. If you are a 10th grader, other high school students are your peers. Peer comes from the Latin par which means equal. When you are on par with someone, you are their peer. A peer-to-peer network is a technology that allows you to connect two or more computers to one system. This connection allows you to easily share data without having to use a separate server for your file-sharing.

## TRON P2P PERFORMANCE

High TPS TRON consistently handles 2,000 transactions per second, 24x7. PER PERFORMANCE  
High TPS TRON consistently handles 2,000 transactions per second, 24x7.

A smiling woman with blonde hair, wearing a white blouse and a headset, holding a tablet. A yellow speech bubble with three dots is positioned near her head.
